

ADOPT-A-ROOM

Partnership Information

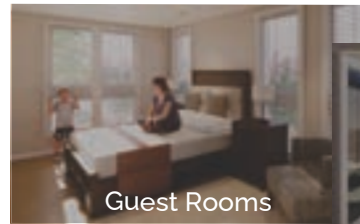

When your child is critically ill, your whole world can stop. Finding the right doctors or treatment plan could mean traveling across the county, state, country or even the world. Every parent should be able to focus on the health and care of their child without having to worry about where they will stay.

Becoming an Adopt-A-Room partner allows you, your company or organization to be the sponsor of a room or space that families will call a 'home away from home' within Ronald McDonald House® Orange County (RMHOC), Ronald McDonald Family Room® (RMFR) at CHOC Children's or RMFR at CHOC at Mission Hospital. This annual commitment helps fund the families who use that room or space over the course of a year, while their child receives medical care. During construction, your sponsorship helps fund stays for families at local hotels and supports vital services such as transportation and meals until the grand re-opening in 2024.

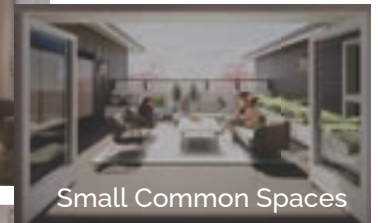

Partnership Benefits

As an Adopt-A-Room partner, you will receive:

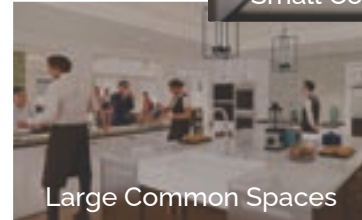

- **Prominent signage by your room or space** for the duration of your sponsorship
- **Monthly connections** including reports of families being served by RMHOC and RMFR programs, personal letters from families using your room or space, and other updates
- **Online recognition on the RMHOC website** of your household, family, foundation or company name and logo, subject to your approval
- **Permanent recognition** at the end of your sponsored year with a gifted plaque
