

A History of Our House

The Mission of the Loma Linda Ronald McDonald House (LLRMH) is to provide a “home away from home” to families while their children receive medical treatment at Loma Linda University Children’s Hospital and other nearby hospitals. Most of the children are in critical condition, making it very important that the family is close by. Since opening on September 11, 1996, the LLRMH has served more than 5,000 families.

Room requests are sent from the social workers at the hospital. Requests are reviewed based on diagnosis and distance. Each family is considered on a case by case basis and on room availability. The average length of stay for families is 7.1 days.

A fee of \$10.00 per night is charged to stay at the LLRMH, however, no family is ever turned away due to their inability to pay. Funds to operate the House come from contributions through individual gifts, special events, corporate donations and foundation grants. We rely heavily on the support we receive in our community.

The Loma Linda Ronald McDonald house has expanded to meet the growing need of our program services to San Bernardino and Riverside Counties . We have added an additional 33 guests rooms to accommodate a total of 54 families per night. We hope that you will adopt one of our guest rooms knowing that your commitment will provide comfort, care and support to children and their families during this most critical time of their lives.

Thank yall so much for giving us a place to stay. My wife & I are from 2 hours away and had no sleep arrangement and were able to get some real rest while we waited for word on our son. We can not thank ya'll enough.
